Technical features

- Aluminum housing for high heat dissipation by natural ventilation
- Yoke with clutch-locking system
- Easy access to the lamphouse for fast maintenance

Functional features

- LED temperature range control to guarantee the best performances
- Constant colour temperature during the whole dimming curve
- Zero to Full dimming with pre-loaded dimming curves
- Remote controllable funcions via DMX-RDM
- 8/16 bit control mode on all channels

Green line advantages

- No dangerous UV or IR rays for the safe lighting of the people and objects
- No radioactive or mercury-based components
- Nearly 75% saving on mains power consumption if compared to an equally-performing conventional fixture
- Reduced installation and cabling costs thanks to the In&Out chain connection system both for power mains and DMX/DALI data control
- Savings on running costs thanks to the extended lifespan of the LED source compared to the periodical repalcement of conventional bulbs
- Savings on the air-con setup and supply, thanks to the lower heat emission of the fixtures
- No maintenance costs for the replacement of colour filters due to overheating and damage
- Compatibility with existent dimmer lines network
