

ACCESSORIES

IMPERIO POLE

Use the Imperio Pole, along with the Sub and two of the Imperio Loudspeakers to create "Imperio System One". Great for small to medium events. The Imperio Pole can be broken down into two pieces for different height selections, and easy transport. It also includes an adapter to secure the Imperio modules.

The Imperio Pole uses an M20 thread to connect to the Sub.

IMPERIO LINK PINS

Always good to have extra pins on hand.

The Imperio Link Pins are sold in sets of four.

IMPERIO FLYBAR SM

Fly up to 8 Imperio loudspeaker modules using the Imperio Flybar SM.

*Note: Not to be used to fly subwoofers.

IMPERIO FLYBAR LG

Use two of the Imperio Flybar LG to fly an Imperio Sub and eight of the Imperio loudspeaker modules underneath. You can also use one of the Flybar LG's to create a ground stack.

IMPERIO MINI LINE ARRAY SYSTEM

ALSO AVAILABLE IN WHITE
