

CHARMY | High Performance Variable Beam

Potentiometers on the back of the light to adjust light intensity and color temperature

The CHARMY is a high performance LED SPOT light featuring an optical unit with seamlessly adjustable beam angle, from 18 to 40 degrees. Color temperature can be tuned from 1800K to 5200K. The CHARMY has an elegant design, and delivers incomparable versatility thanks to its adjustable parameters. It is therefore much appreciated in venues where temporary exhibitions or changes are frequent. The unit is available in white or customized finishing.

OPTICS: VARIABLE FROM 18° TO 40°
