

## DINA-DR1 LITE

# Get what you really need

Entirely based on the DINA-DR1 lighting controller, the LITE version comes with limited but expandable features. Because there is no perfect controller for all projects, the DR1 LITE is the "on demand" answer to the most demanding projects.

Refer to the [DINA-DR1](#) page for more information about the product, the table below shows what is standard and what is optional.

DR1 LITE	2000 SCENES	20 ZONES	1024+ CHANNELS
