

# SOLAR LED LIGHT

## MAXI COLONNA

**Cod.SP#0024** - Red LED  
**Cod.SP#0025** - Yellow LED

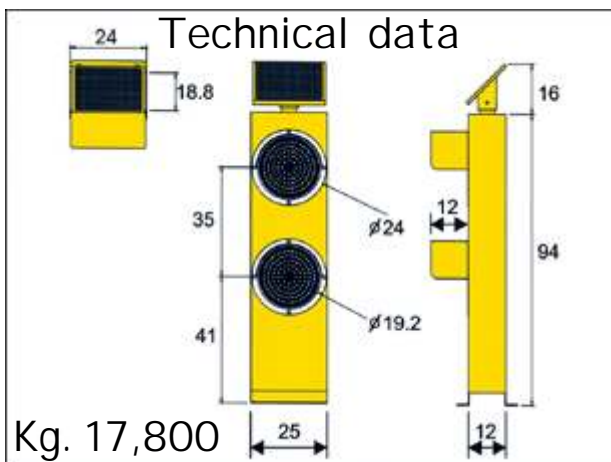

### Features:

- Built-in solar panel with fully automatic rechargeable system.
- Super bright LED lamps for longer lifetime (low power consumption and no re-lamp required).
- Large dual flashing lamps for best warning effect.
- Durable iron-case housing provides longer lifetime.
- The particular dimension and form allows a higher and immediate warning of danger zones, especially during the night/fog/rain.
- Vible up to 100 meters in good weather condition.

### Applications:

- Tunnel entrance
- Center divider
- Barricad

Technical specifications		
Solar Pannel	Type	Single-crystal silicon
	Voltage	9 V
	Current	516 mA
Battery	Material	Lead acid
	Voltage	6 V
	Current	20 AH
LED	Diameter	10 mm
	N°LED	120 x2= 240
	Flash rate	60 flash/ min ±20%
	Operation time	24 h
