

# SOLAR LED LIGHT

## MINI COLONNA

**Cod.SP#0028** - Red LED  
**Cod.SP#0029** - Yellow LED

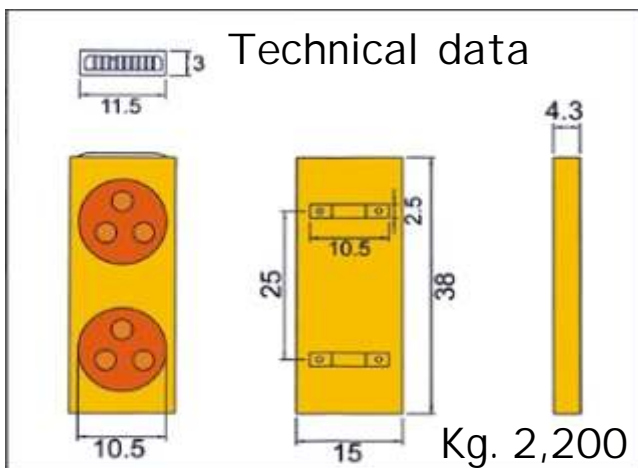

**Features:**

- Built-in solar panel with fully automatic rechargeable system.
- Super bright LED lamps for longer lifetime (low power consumption and no re-lamp required).
- Large dual flashing lamps for best warning effect.
- The particular dimension and form allows a higher and immediate warning of danger zones, especially during the night/fog/rain.
- Vible up to 100 meters in good weather condition.

**Applications:**

- Tunnel entrance
- Center divider
- Barricad

Technical specifications		
Solar Pannel	Type	Single-crystal silicon
	Voltage	3 V
	Current	120 mA
	Dimensions (cm)	2.6 x 10.7
Battery	Material	Saeled.bead rechargeable
	Voltage	2 V
	Current	2.5 AH
LED	Diameter	10 mm
	N°LED	6
	Flash rate	120 flash/ min ±20%
	Operatin time	At night
