

E-FLY™

The E-FLY™ Transceiver is a high-powered wireless DMX Transceiver (Transmitter/Receiver in one) that is compatible with other E-FLY™ and products and includes a rechargeable battery, which provides a solution for remote applications where access to power is a challenge. Connected to a DMX Controller, the E-FLY™ Transceiver will provide a constant and reliable wireless DMX signal up to 2,500 feet (762m) to other Elation E-FLY™ products. The 2.4 GHz wireless frequency will coexist in busy RF environments alongside technologies like Bluetooth and Wi-Fi.

SPECIFICATIONS

Wireless DMX Transceiver (Transmitter/Receiver In One)
 Rechargeable Battery Life - Up To 20 hours
 Battery Life and Signal Strength Indicator Display
 Wireless Range Up to 2,500 ft (762m) Open Line of Sight
